Ethos

Saint Vincent de Paul Primary School is proud of its Catholic ethos. The school community of Saint Vincent de Paul is committed to the provision of an inclusive, secure and stimulating learning environment where children are highly valued and placed clearly at the centre of school life. This is clearly captured in our ethos statement supported by our school aims.

Our Mission Statement

Saint Vincent de Paul Primary School is committed to working in partnership with our parents to ensure the development of each child's full potential in a climate of support, joy, challenge, co operation and celebration.

We value the realisation that every child born into the world is a new thought of God, an ever fresh and radiant possibility. We are an inclusive school where all are respected and cherished as individuals.

SAINT VINCENT DE PAUL PRIMARY SCHOOL STATEMENT OF SCHOOL AIMS

1. To provide for all pupils a broad and balanced curriculum based on the core curriculum objectives of the new N.I. Revised Curriculum taking account of the individual and differing needs, learning styles and abilities of each child.
2. To provide for the spiritual, moral, intellectual and physical development of each child in an environment, which is both safe and welcoming and which respects and values the individuality of each child.
3. To create a Christian Environment which emphasises and reinforces the values of Catholic Christian living.
4. To provide a curriculum immersed in developing competently the cross curricular skills of communication, using mathematics and using ICT preparing them for future education and for their roles beyond school.
5. To foster close, friendly and co-operative partnerships with the home, local community, neighbouring schools and other support agencies to the benefit of the school and its pupils.
6. To develop in the pupils a sense of citizenship with respect for oneself and others and encourage self-control, self-confidence, co-operation, independence and high personal standards of work and behaviour.
7. To provide the children with a range of learning experiences, which are appropriate to the curriculum objectives and key learning areas of the N.I. Revised Curriculum.
8. To encourage children to take responsibility for their own learning by encouraging children to self-evaluate, set and achieve realistic but challenging goals.
9. To provide opportunities for all the children to experience success, win praise and see themselves as valued members of our school and community.

In developing the above aims we hope to develop each child to his/her fullest potential as an individual, a contributor to society and a future contributor to the economy and the environment.
